OATH TAKING CEREMONY

DEPARTMENT OF ANATOMY Organizes
Cadaveric oath taking ceremony .Place :
Dissection hall Participants : I BAMS students
,Faculties and Staffs of Rachana Shareera.

We, the students of 1ST B.A.M.S, Jain A.G.M Ayurveda College & Hospital,Varur, solemnly pledge to respect the cadaver and treat this once living person with compassion & dignity as we use it to further our professional goals. To show due respect & gratitude to this cadaver who will always remain our first teacher. To pay gratitude towards the next of kin of the donors for their endeavors in serving the society selflessly even after death. To consider this as the best example of Living after death, to always emulate this act of the donor to provide quality health service to society and to enhance the lives of all mankind.

Educational tour

Visit to Manipal anatomy museum

It is one of the largest medical museum in Asia with collection of over 3000 original biological specimens ,skeletons and anatomical models.

Educational tour

Visit to SDM pharmacy Udupi

Visiting the SDM Ayurveda pharmacy in Udupi provides a fantastic bridge between classical learning and modern manufacturing . for ayurvedic students seeing ancient texts translate into large scale automated production using state -of -art machinery validates the scientific potential of our traditional medicine.

Bone preservation

Bone preservation by digging method

In anatomy digging method is an effective traditional technique to extract , clean and preserve bones from cadavers for study . it allows natural bacterial decomposition to safely strip away soft tissues,
